

# Beef & Veal in the Classroom

## Program Overview

September 1, 2023 – June 30, 2024

---

### Program Overview

The Beef & Veal in the Classroom program provides financial support for the use of beef and veal products in junior and senior high school Family and Consumer Science courses. It reinforces lessons about beef and veal selection, storage, preparation and nutrition. This letter outlines the details on how to make the most of this unique opportunity. The Beef Council offers these programs on behalf of the Pennsylvania cattle producers through their \$1-per-head Beef Checkoff.

This year, we will again be extending the program time frame to accommodate classes in both semesters in the school year for fiscal year 2023-2024. We continue to strive to provide the best program we can for our Family and Consumer Science educators.
