Where's the Beef? Beef Products & By-products

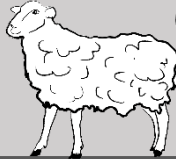

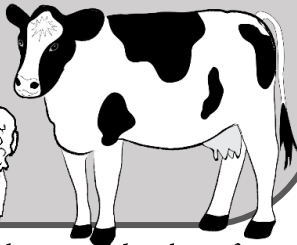

Answer Key

Farmers raise and care for animals to provide us with foods and products we can use. Beef animals provide us with delicious and nutritious beef food products, like steak and ground beef. These are the main products of the beef animal, but the other parts of the animal that we can't eat are used to make by-products. We get lots of by-products, like baseballs and paint, from the parts of the cattle that don't give us meat.

From Beef Cattle

 soccer ball	 band aid	 dice
 paint brush	 steak	 marshmallows
 glue	 hamburger	 sneakers
	 tennis racket	 baseball mitt

From Other Farm Animals

 cheese	 eggs	 yarn	
			

Cut out the images of the products and by-products from farm animals below. Sort them into the correct box above to match the farm animal that provides them for us to eat or use.
